of

SHORTHORNS

Made by

**ALBERT P. OXTON
AND SONS**

At

**BRITTON, SOUTH DAKOTA
FRIDAY, MAY 4, 1956**

1:00 P. M.

GENERAL INFORMATION

The sale will be held in the pavilion adjoining Britton, South Dakota, on the South, starting at one o'clock.

TERMS—Cash, unless other arrangements are made in advance with the clerk. Settlements are to be made with the clerk immediately following the close of the sale. All cattle will be at buyer's risk as soon as bid off, but the sellers will attend to loading on cars or trucks in compliance with instructions from buyers.

PEDIGREE CERTIFICATES—A certificate of registration and a transfer will be furnished with each lot and an application for registry will be furnished for each calf at foot or for each calf sold in dam.

GUARANTEE—All cattle in the herd have been tested for T.B. They have also been tested for Bang's to comply with the 30-day requirement before sale date. Health Certificates will be furnished with each lot to enable it to be shipped into any state. Since there will be no herd remaining from which replacements could be made, no guarantee of future performance is given or implied. It is not customary to give such guarantee in the case of a complete dispersal sale. However, all particulars pertaining to each lot will be given on sale day.

The sellers will not be responsible for any accidents that may occur, but will make every effort for the safety and comfort of their guests.

MAIL BIDS—Those wanting to buy at this sale, but who cannot be present may send buying instructions to John F. White, Sale Manager, addressing their buying orders to Britton, South Dakota, in care of Albert P. Oxton & Son.

Albert P. Oxton & Son

Jas. Magness, Auctioneer

A FOREWORD

We offer no apologies for our cattle. We feel they have proved they are practical farm cattle, capable of returning a profit above the cost of their keep through good years and bad. Our Shorthorns were the anchor that kept us seaworthy during the drought and depression years and they have proved our main source of revenue down through the years.

Our first purebred Shorthorn, a bull, was purchased by Albert Oxton, the senior partner, from George Lightall, then of Andover, in December, 1918. The first purebred cows were purchased in the spring of 1919 from Flanagan & Lanning of Selby, S. Dak., and Fred Lee of Britton.

From that time until 1941 our progress was slow, being made entirely by selection from our own cattle. After 1941, we made a number of purchases of outstanding females, selecting them from such herds as Husted Bros., Phillip Funk, Fred Lee, Sni-A-Bar Farms, Sumption Bros., Erickson Bros., Rusche Bros., and Dr. S. A. Donahoe.

The cows offered in this dispersion sale are the ones we planned to use in the continuation of our breeding program. They are cows or heifers from dams which have always had good calves. A poor producer was of no value to us and was soon marketed. We are certain the cattle offered in this sale will prove profitable for their new owners.

Albert P. Oxton & Son

A STATEMENT

Albert P. Oxton & Son's decision to disperse their Ashland herd of Shorthorns offers buyers an opportunity to make selections from a group of Shorthorns whose desirability cannot be questioned.

Prospective buyers should attend this sale for various reasons. The writer who has been familiar with this herd for more than a quarter of a century through his activities as Secretary of the South Dakota Shorthorn Association recommends these cattle as being the profitable kind to buy, the kind that will not cost too much money and whose returns on the money invested in them will be entirely satisfactory. These cattle will fulfill the wishes of the man who wants to buy Shorthorns he can place on his farm with the assurance they will make good in an ordinary farm environment. They have made good for Albert Oxton & Son and they will do the same for their buyers if given an opportunity.

A study of the pedigrees that follow will disclose that the entire female end of the offering is made up of representatives of a few families that the Oxtons have found profitable year after year. These men are practical farmers and cattlemen who would tolerate no other kind and as a result the females comprising their cow herd are there because of their dependability. They are a working contingent that would be sold from Ashland Farm under no other circumstances than in a complete dispersion.

The writer has watched the progress that Albert Oxton & Son have made during the past two decades in the improvement of their cattle. Much of their success in the improvement of their herd, he believes, can be attributed to their willingness to go out and buy herd bulls they believed would improve the quality of their cattle. These men have invited success by paying the greatest possible attention to the kind of sires they placed in service in their herd. For this reason it is not to be wondered at that their Shorthorns have shown marked improvement in form and character from generation to generation.

Today the herd has a sire in service in Ashland Marshal Max which his owners consider the peak in their achievements in the selection of sires. When one studies what this bull is accomplishing in the herd at the present time the conclusion is reached that Ashland Marshal Max has superior qualification as a sire and they show that their sire is of prepotent character. Ashland Marshal Max is included in the sale and the man who is so fortunate as to buy him will be making the most of a rare opportunity to secure a tested and an outstanding sire.

The writer regrets the need for dispersing this good Shorthorn herd. He believes this father and son have placed themselves in a position where they could confidently expect to register still greater progress as Shorthorn breeders in the years immediately ahead than they have made during the past two decades. However, the junior partner has assumed new duties that require all his time and the weight of advancing years has led the senior member of the firm to decide he should lay aside the cares and responsibilities that devolve upon him in the operation of a breeding establishment of the proportions of Ashland Farm.

John F. White, Sale Manager, Lake Norden, S. Dak.

ASHLAND MARSHAL MAX is the best bull for the least money Albert Oxton and Son have ever owned. They purchased his dam carrying a calf to the service of Killearn Clipper Max at the Fred Lee Dispersion sale and Ashland Marshal Max is the result of that mating. The sons and daughters of this bull which will be in evidence the day of the sale will testify to his right to be rated as one of the really great Shorthorn sires in service today. Ashland Marshal Max has a most impressive head, a beautifully balanced body and his remarkable natural fleshing qualities leave nothing to be desired. He is an individual of rare quality and form and is capable of correcting faults which may be found in the herd in which he is placed in service. In his five-year-old form, Ashland Marshal Max is right in his prime. He has demonstrated his ability to sire calves of the most approved modern-day pattern and the man who buys him will indeed be fortunate as he will be placing himself in a position to make rapid progress in the business of producing modern type beef Shorthorns.

DON HILL MERCURY 48th—We purchased this bull from Dr. S. A. Donahoe to replace the loss of Don Hill Mercury 37th. We have not used him as much as we have the other bulls, but what calves we have indicate they will carry much of his scale and ruggedness which is never a fault in a good Shorthorn. We are certain this young bull in his prime of life is deserving of a good herd of cows in which to prove himself.

DON HILL ROYAL LEADER 22nd

We feel the highest praise we can offer this good breeding son of Edellyn Royal Leader 19th is to say that we regret we could not have had his service in our herd 20 years earlier. He has worked greater improvement in our herd than any other bull we ever owned. We feel certain his sons and daughters in this sale offer sufficient proof of his value as a sire. One son, Ashaland Royal Leader 2nd, was grand champion at the November, 1951 State Sale, selling to Melvin and Loren Schiefelbein, Clear Lake, S. Dak. A daughter, Victoria A 14th, was the top selling female in the State Sale in October, 1953. Many of his sons and daughters through the years have placed high in their respective classes at the State Sales and have gone out to appreciative buyers at prices above the average of the sales. We hope to have this bull at the sale for inspection. However, a leg injury which he suffered this past year may prevent moving him from Ashland Farm.

DON HILL MERCURY 37th

We purchased Don Hill Mercury 37th in April, 1952 to concentrate Royal Leader breeding and to give us an infusion of Mercury breeding at the same time. His granddam, Shore Acres Augusta C, was sired by Cruggleton Achtoi, acclaimed as one of the best sires of heifers ever imported to this country. It was our misfortune to lose the services of this bull after he had sired only six calves, four of which were females and are included in this sale. They are developing into outstanding individuals.

GOLDIE A 7th—Her granddam was purchased from Sumption Bros.' Consignment at the 1942 Inter-State Sale at Sioux City, Iowa. Each cow in this family has been a regular breeder, averaging well over a calf per year for their lifetime. We have always rated Goldie A 7th very highly. Bred Dec. 3 to Don Hill Leader 22nd.

VIOLET 21st is a member of the oldest family in our herd. The family originated in our herd through the purchase of a heifer calf from the late Fred Lee in October, 1918. The Violets have always been prolific in our herd and have consistently made money for us. Violet 21st was pasture bred to Don Hill Mercury 48th. Her first calf was the second top selling female in the State Sale in October, 1954.

ASHLAND DUCHESS is one of the few cows we have left sired by Ash-
land Goldfinder, the sire that started us on the road to herd improvement.
Ashland Duchess sells with a red Don Hill Royal Leader 22nd heifer calf at
foot that was calved January 1st.

VIOLET 25th is a full sister to Violet 21st and is just as good an individual with the advantage of having more years of usefulness before her. The dam of these two Violets was sold with another heifer calf to Joel Tasted of Pierpont, S. Dak., to serve as the foundation of a Shorthorn herd. Violet 25th was pasture bred to Ashland Marshal Max.

DAUNTLESS DELLA 5th is one of our best breeding cows. Her heifers were the kind that other breeders wanted and we sold too many of them for the good of our own herd. Kenneth Holum of Groton, S. Dak., and John M. Nussbaum of Aurora, S. Dak., each have two of her daughters. A son, Ashland Royal Leader 10th, sold in the State Sale in the spring of 1952 to Eric Hermann of Garretson, S. Dak., for \$595.00. Dauntless Della 5th was pasture bred to Don Hill Royal Leader 22nd.
